

K-LOVE is a true source of inspiration to me and my entire family, to include our two teenagers. This is the only alternative to rock and other music we have and listen to. This world is so tough on young people, so they need this extra support and encouragement. The community is also dependent upon on this station. We have over 1.5 million people in our city--this is one of only two stations who offer this type of programming. We've be lost without it. K-LOVE has made a huge difference not only in our community, but many, many others throughout the US. Hundreds of thousands of parents depend on K-LOVE as the alternative choice to other music--please don't displace with LPFM--keep K-LOVE strong and on FM!! God bless you!!!
